If answer is no, identify report(s). Yes No
- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected in the earnings statement to be included in the subject report or portion thereof? Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company expects to report a consolidated net loss of approximately \$49,559,000, for the year ended December 31, 2015, as compared to a consolidated net loss of approximately \$16,541,000 for the year ended December 31, 2014. The increase in net loss of approximately \$33,018,000 was primarily due to increases in non-cash financing costs related to our convertible debentures, the change in fair value of derivative liabilities and amortization of the debt discount, and general and administrative expenses, offset by a decrease in costs of revenue.

In 2015, the Company changed its business model to contracting with third-party operators for a percentage of operating income or a recurring fixed fee based on applicable law. During the transition period to our new business model, expenses to secure new contracts and licenses were incurred and revenue is deferred principally until new licenses are obtained and new dispensaries and cultivation centers have been built-out and begin operating.

We expect operating expenses to have increased for the twelve months ended December 31, 2015 compared to the same period of 2014 by approximately \$8,412,000. One component of the increase was the introduction during the third quarter of 2014 of a new stock compensation plan to attract new talent to the Board of Directors and the management team which added to operating costs for stock based compensation expense of approximately \$1,640,000. Other causes of the increase are increases in general and administrative expense from legal expenses to defend shareholders suits, assist the Company with contracting and to provide general corporate counsel of \$2,436,000, impairment losses for our Vaporfection subsidiary's, intangible assets and goodwill, totaling \$1,755,000 and increased public company costs for preparation and filing of restatements of historical financials, registration statements for secondary offerings, and SEC periodic reports of \$1,053,000.

Based on the expected changes to revenue and operating expenses discussed above, we expect our loss from operations to see an increase of approximately \$6,681,000 for the year ended December 31, 2015 over the corresponding period in 2014.

This unaudited financial information is preliminary based upon estimates and currently available information and does not reflect final estimates of contingent liabilities arising out of subsequent events and any final adjustments therein. The financial information presented above does not constitute a comprehensive statement of the Company's financial results for the year ended December 31, 2015, and the Company's final results may differ from these estimates. The Company's independent registered public accounting firm has not audited or reviewed, and does not express an opinion with respect to, this information.
